

It is difficult to imagine that in the United States of America would subject its own citizens to illegal incarceration and torture without even being convicted of a crime. The Medieval conditions of confinement that we are subject to are torture.

This is not a correctional facility, this is an evisceration facility, designed to break the body, mind, and soul, of men whom are presumed innocent until proven guilty. Democracies do not behave this way. Totalitarian governments that jail and murder their political opponents do. DC-Gitmo is an abomination in the site of the law, Lady Justice, and the monuments to our Founding Fathers just a few blocks away.

Nothing is “correct” in the walls of this facility. Inside, it’s woeful captives are slowly murdered in every way. The only thing you not yet taken from us is our souls which lay within the weakened bones of our famished chests. Us prisoners have witnessed a multitude of horrendous horrors and have been deeply afflicted by the hellacious conditions this jail, which insists on tormenting us, its defenseless and traumatized guests.

Words will always fall short of the accurate depiction of torment and pandemonium that every prisoner, especially the January Sixth Prisoner, within these walls has had to endure. If this pale dungeon of human rights violations dared to summon the Spirit of Honesty, even for a second, the leaders of this iron maiden would be forced to erect a banner above its unforgiving doors that says: “Abandon All hope, Ye who enter here.”

Therefore, let it be recorded and published, on this 30th day of October 2021, that in order to memorialize the tortures, we face on a daily basis, the destitute and desperate prisoners held captive at 1901 D Street SE, Washington DC, 20003, have written down the list of the most common and repeated offenses inflicted upon us by the leadership and officers at that seek to break us. In that vein, we proclaim, the following constitutional, human, and civil rights violations, to the world:

We are compelled to alert the world of the Diabolical conditions in this “Correctional Facility” which continues to crush all of its detainees. We are Political Prisoners on American soil who have been unjustly and unfairly incarcerated. We are relentlessly burdened by selective prosecution. We are slandered and vilified by mainstream media. We are repeatedly accosted. We receive death threats from within the jail. We receive death threats upon our homes and families through the mail. ALL because of our political affiliation.

Guantanamo Bay Cuba is a detention facility that actually provides nutritional meals, routine sunlight exposure, top notch medical care, and is respectful of Religious Requirements. It has centers for exercise, and entertainment for the detainees, even though those detainees are Al Qaeda, ISIS, and Taliban that have actually killed American citizens.

Therefore, if the Government is going to continue to illegally hold us in DC-Guantanamo, under the abovementioned horrific conditions, subjecting us to cruel and unusual punishment, and various tortures. We hereby, make the following request: Let us spend our precious and limited days in Guantanamo Bay Cuba, where the enemies of the United States of America are treated better than us group of January Sixers, who have merely been accused of crimes.
